Re: Request for Payroll Information

Director Drasheff:

I would like to, again, make the request for information concerning payroll. I have been very patient with your lack of cooperation in this matter. However, I will try to explain in detail what I expect.

Title of Employee (NOT NAME) Department; Starting Date; Salary

That is the first request that I am looking for. My second request is an entire list of persons who work for the City of Hoboken and their addresses.

I appreciate your immediate response since I have made this request from you for over one and ½ months.

*Very Truly Yours,
Theresa Castellano*
