Dear Theresa,

This letter is to inform you that I have not forgotten the kindness and attentiveness you showed me when I was trying for so long to get the city council to take my quality of life issue seriously. You were the only one who not only did not dismiss MY claim but also understood and accepted it's importance as a safety issue and as a violation of my rights . There are other quality of life issues that have been mentioned and others that need to be reviewed and acted on. But I have not forgotten your willingness to remove the unwanted material while I went on vacation.

Therefore I wanted to tell you and assure you that I will absolutely give you my vote on election day the 13th. Yes there are other important issues but the quality of life issues when it comes to health and safety should be brought to center stage and acted on without delay.

I would like to thank you also for appearing at the veterans events. It is important to vets that they are not forgotten and that there are those who are willing to go to bat for them on veterans issues.

Respectfully,
