

MARINE VIEW TENANTS

I was in the process of compiling a list of the calls and compliments I have received and acted upon this for you so far.

Elevator #1, mice, bugs, noise, maintenance are just a few. You are the residents of the building; I can only rely on you contracting me of a problem. I welcome your input and the opportunity as your councilwoman to intervene on your behalf. My message from the first year I was elected is to be hands on councilperson and that message has continued thru my 3rd term.

If I can be of any assistance in the future with other issues, please feel free to call or write me. I will be available to assist

Regards,

Theresa Castellano
1st Ward Councilwoman
